“There’s more to thermal imaging than changing the batteries”

Featured Speaker: Robert Athanas

Robert Athanas is a firefighter on Rescue Company 3, FDNY and is a senior instructor and president of SAFE-IR Inc. Firefighter Athanas has served as a consultant to thermal imaging manufacturers as well as end users and research organizations. He has 30 years experience as a firefighter and has more than 10 years experience using and teaching thermal imaging. He is a New York State Certified Instructor, thermal imaging instructor at the FDNY Fire Academy as well as a H.O.T. Instructor at the FDIC and Firehouse conferences. He is a frequent lecturer on thermal imaging and is a member of the NFPA Electronic Safety Equipment Committee responsible for developing NFPA 1801: Standard on Thermal Imagers for the Fire Service. Firefighter Athanas will discuss thermal imaging theory and technology, strategic and tactical considerations, along with the new NFPA standard.

Thursday, November 17, 2011
